

## No barriers – foster the flow Realtime synchronization of performance and market demand

## Complexity in production and logistics Process- and IT-Environment

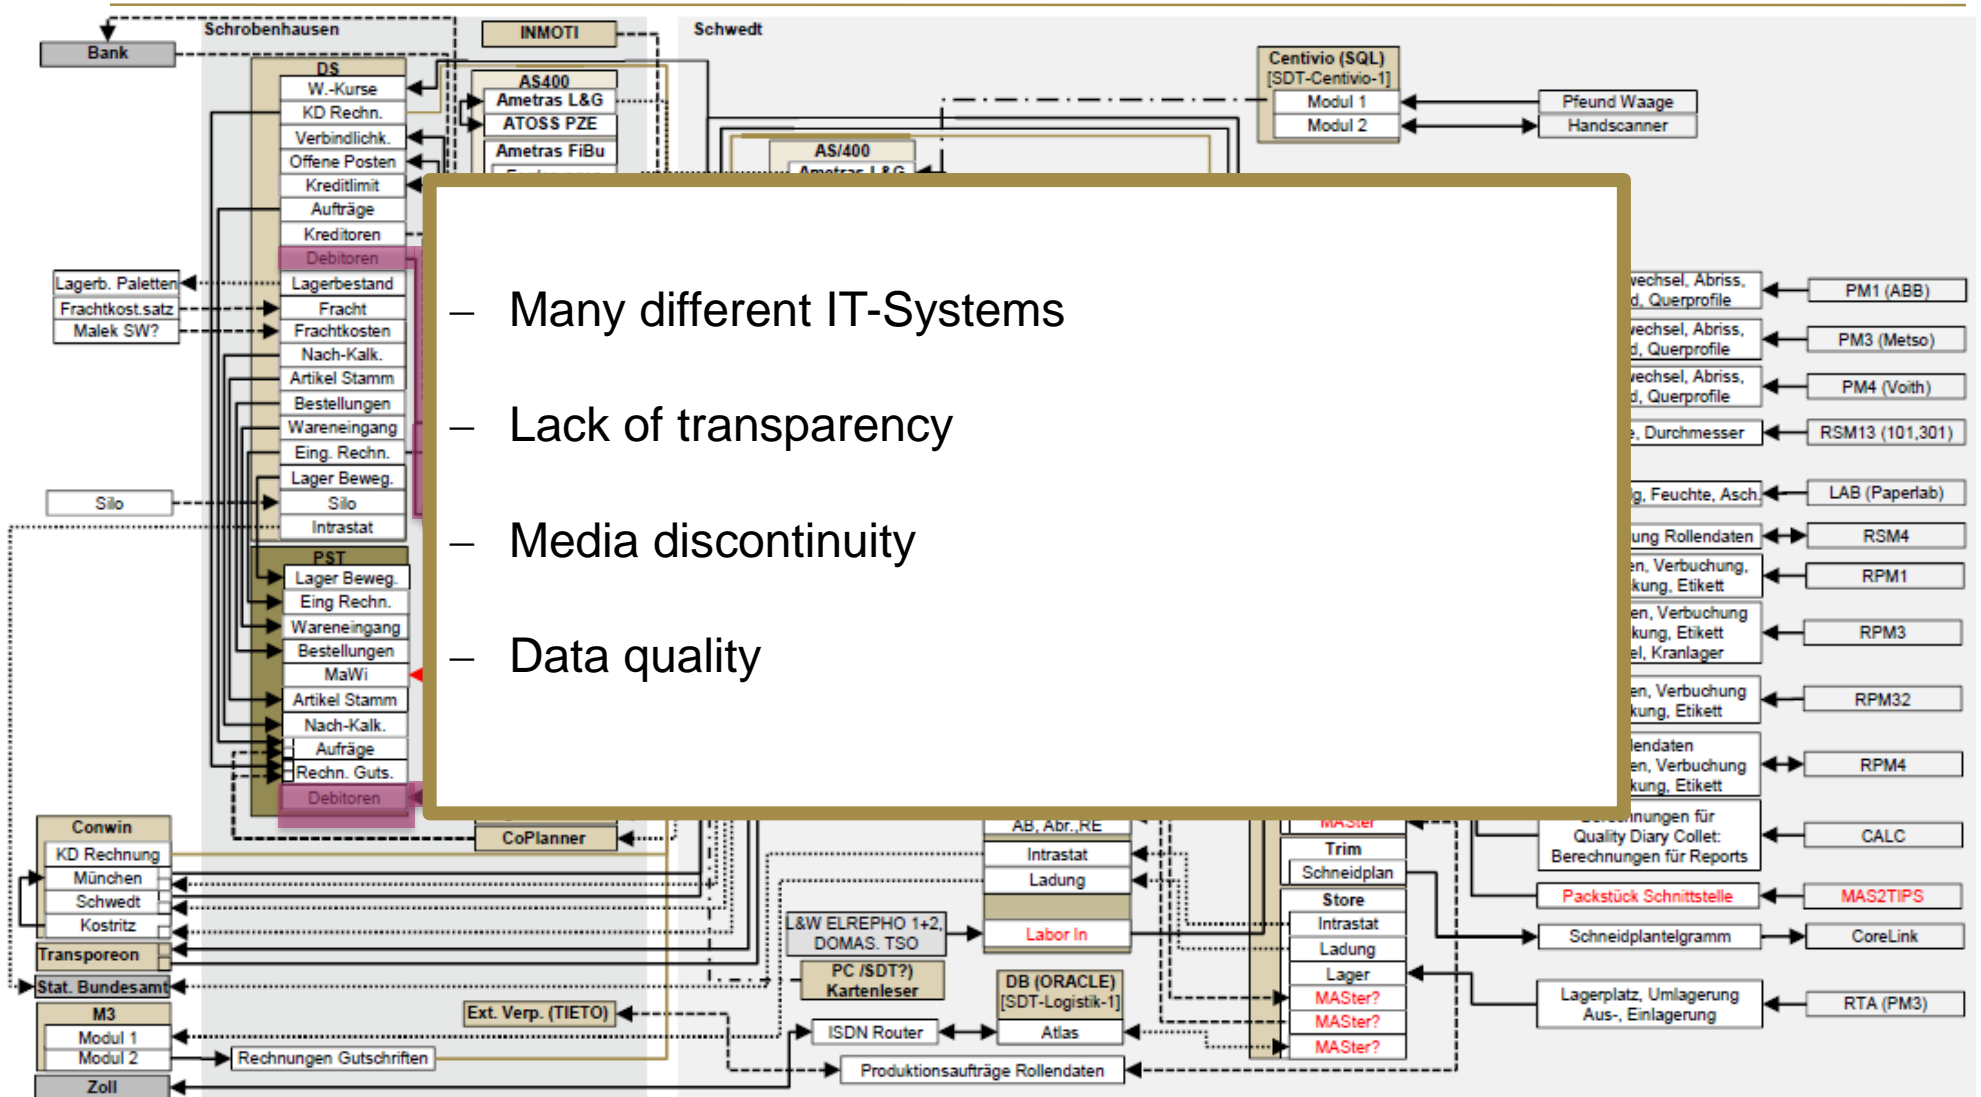

## Consequence of complexity

### Many barriers

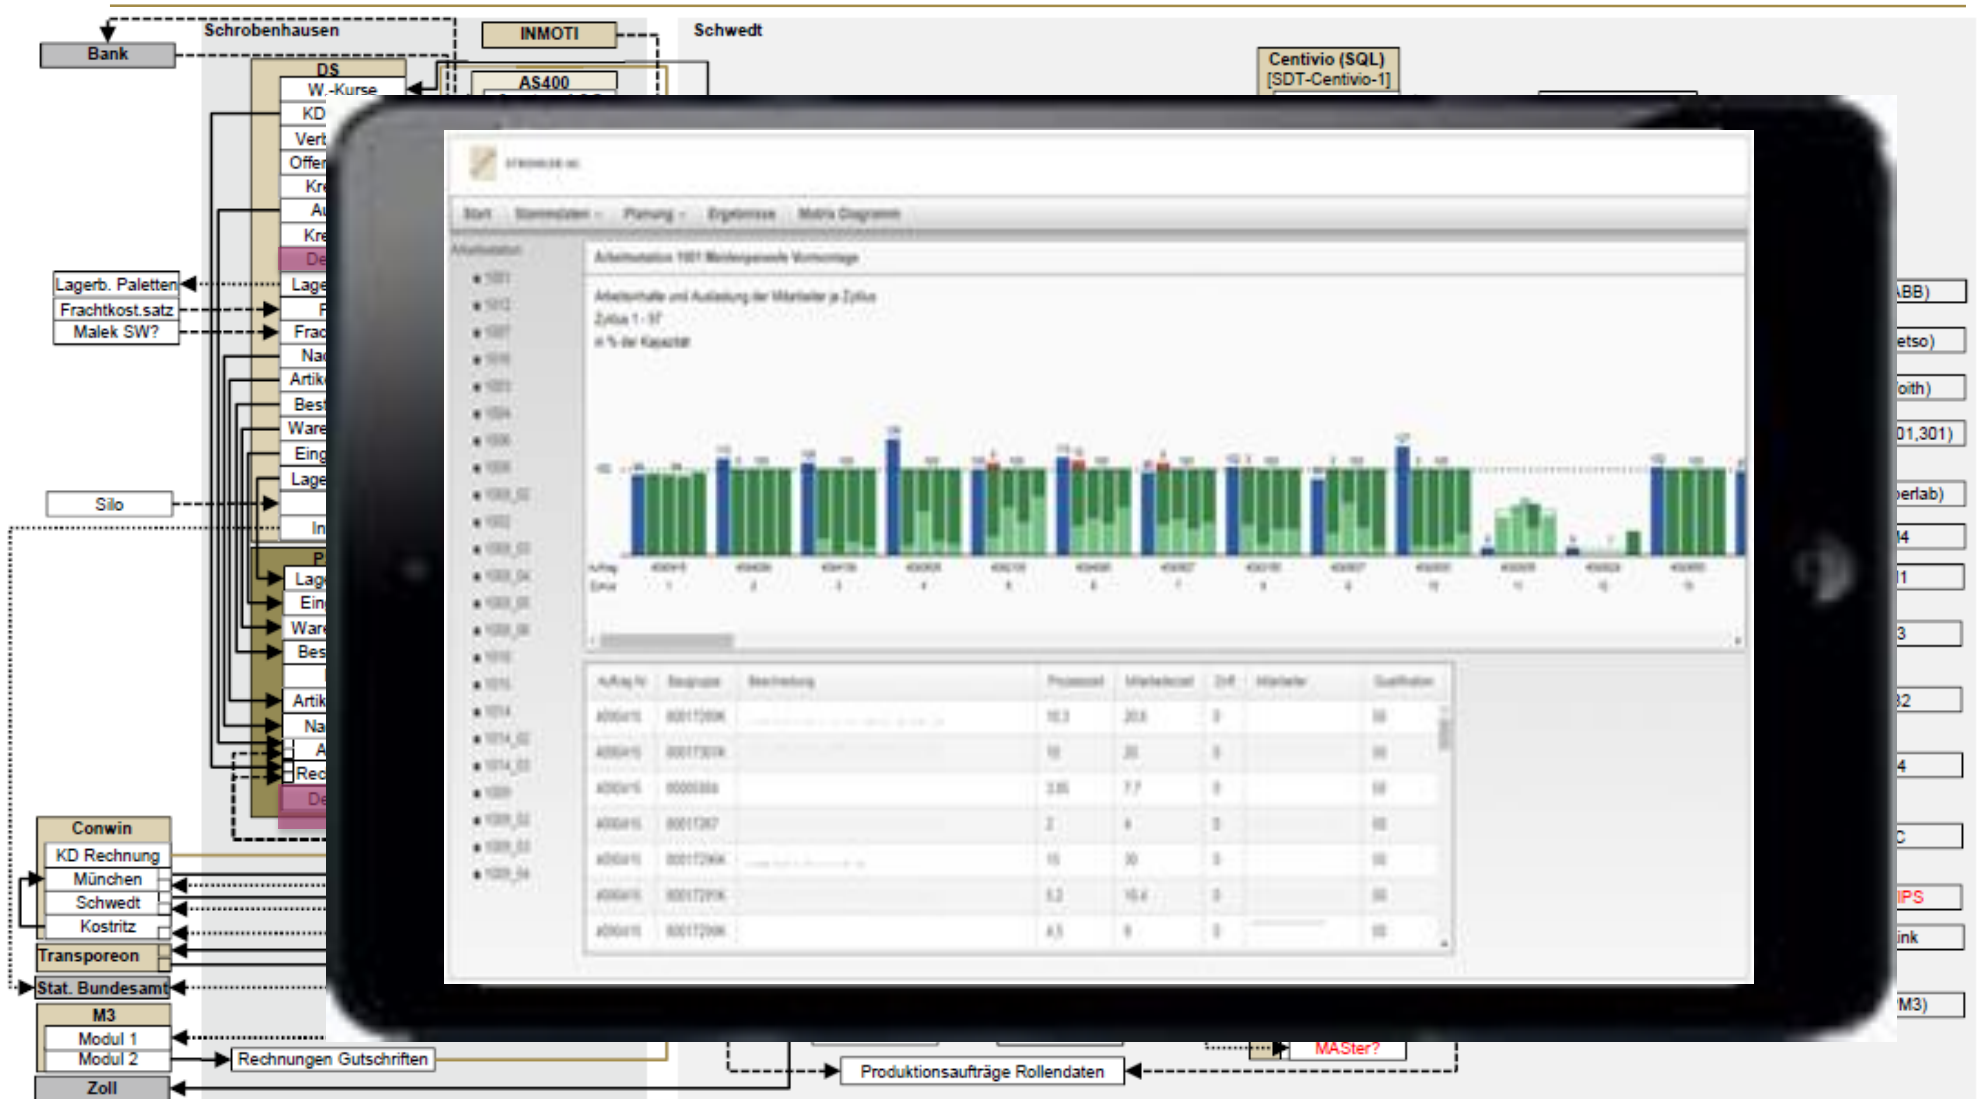

- Many different IT-Systems
- Lack of transparency
- Media discontinuity
- Data quality

## Managing Complexity: reference process architecture and real-time platform

Solution for transparency, reactivity and speed

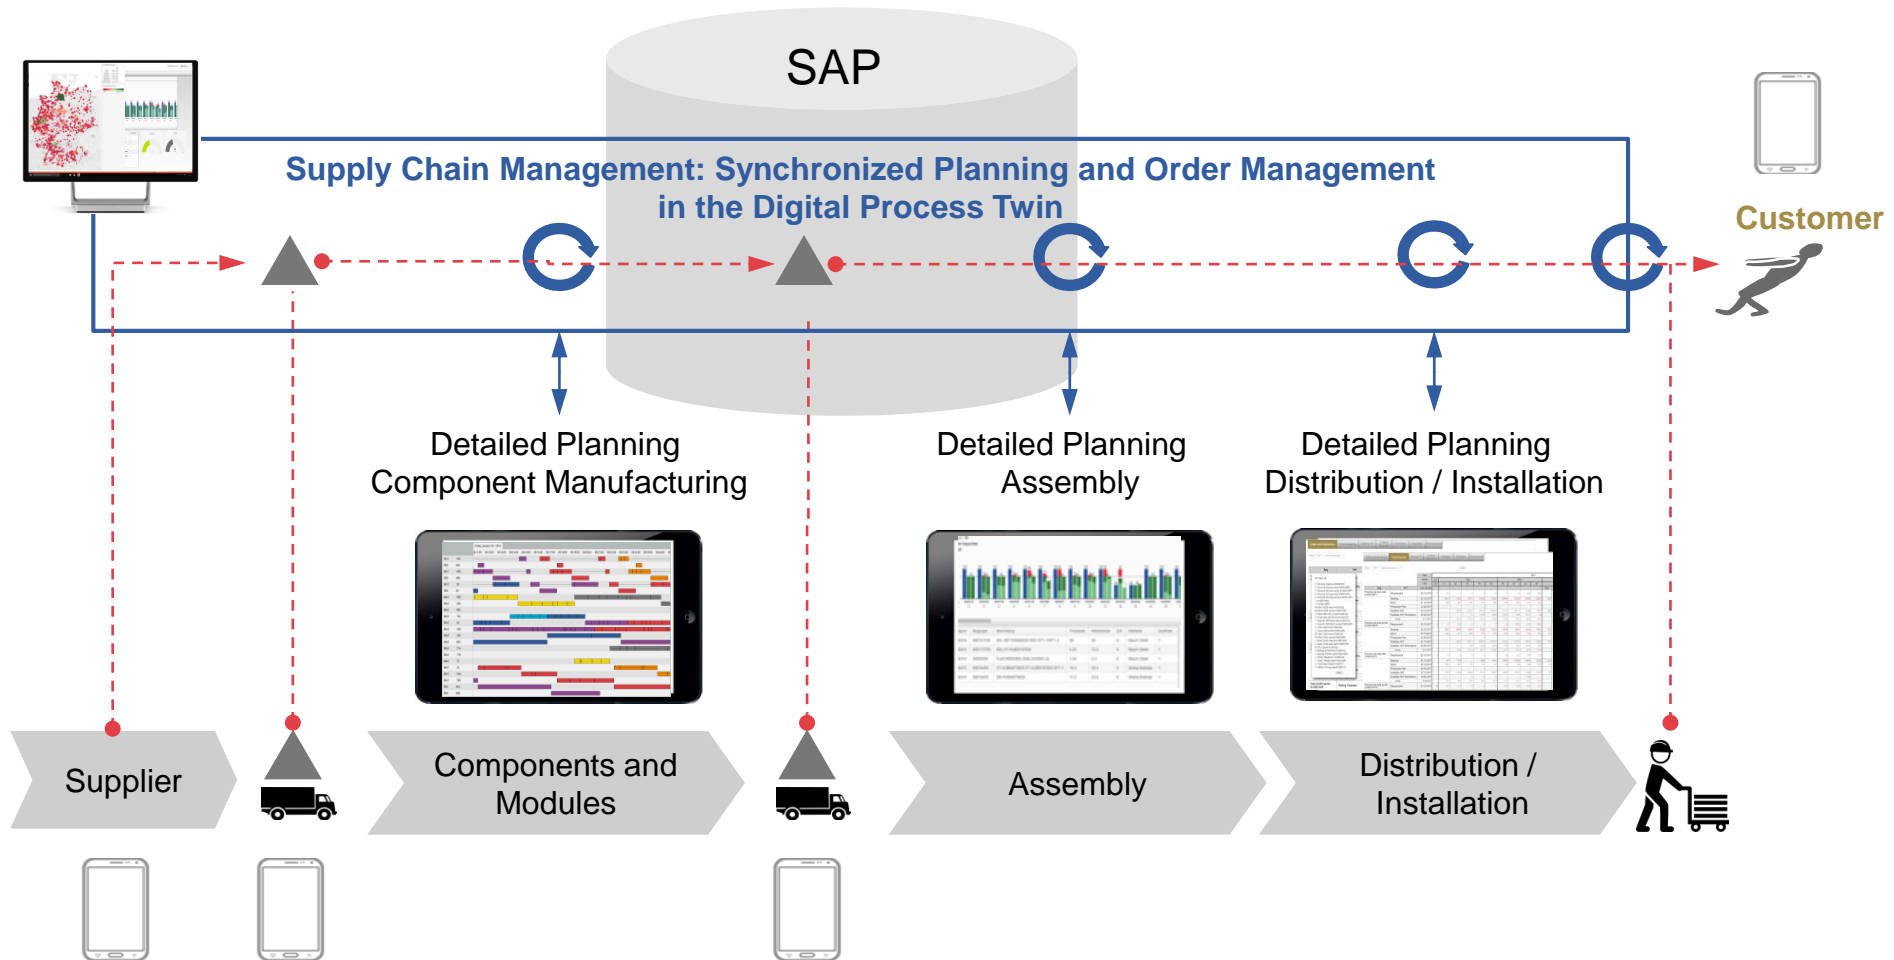

## Our platform approach

Integration and synchronization of all elements of the value chain

## Enabling seamless information flow between ERP and production team

### Voith Turbo Smart Interface Application

---

# VOITH

## Invitation

STREMLER AG

PROJECT INSIGHTS INDUSTRY 4.0

**Realtime synchronisation of performance and market demand**  
Seamless integration of logistics, production and procurement network  
**Register at [www.c4l.lu/stremler](http://www.c4l.lu/stremler)**

**CLUSTER  
FOR  
LOGISTICS**  
LUXEMBOURG

Chambre de Commerce  
**29th November 2018**  
**12:00 - 14:30**

**We look forward to welcoming you...**
